

# Feed Chart

Please see below our universal feed chart designed for use in UK water. Always use fresh, clean water and mix the solution well after adding each nutrient. Please shake all bottles prior to use. Check the pH & EC levels of the final solution.

Vegetative period: 18/6

Flowering period: 12/12

Product / Week	Week 1	Week 2	Week 3	Week 4	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9
Part A&B	1.5 ml / L	1.5 ml / L	1.5 ml / L	2 ml / L	2 ml / L	2 ml / L	2.5 ml / L	2.5 ml / L	2.5 ml / L	2.5 ml / L	2 ml / L	2 ml / L	FLUSH
Ryzo	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	2 ml / L	FLUSH

Flowerbomb					2 ml / L	2 ml / L	2 ml / L	2 ml / L	3 ml / L	3 ml / L	4 ml / L	4 ml / L	FLUSH
PK Venom					0.25 ml / L	0.25 ml / L	0.5 ml / L	0.75 ml / L	0.75 ml / L	1 ml / L	1 ml / L	1 ml / L	FLUSH
Bud Vessel					0.4 g / L	0.4 g / L							FLUSH
KG											2 ml / L	2 ml / L	FLUSH

## Tips:

- Crops grown in soil; feed every other watering. E.g. nutrient solution, water, nutrient solution, water.
- Crops grown in hydro should use the feed chart at half strength as a starting point.
- Crops grown in coco can use the chart as directed.
- Ryzo - Foliar feed every 5th day at 4 ml / L.
- Ryzo - Jiffy soak use at 4ml / L. Seedlings/cuttings use at 4ml / L.
